EDUCATION

Master of Science in Information Systems Management, Minor in Economics April 2027
Brigham Young University – Marriott School of Business Provo, UT

- GPA: 3.80 | Major GPA: 3.91 | Dean's List (top 5% of students): 2024, 2025
- Recipient: ExxonMobil IS Academic Scholarship, Management Society Scholarship, Academic Merit Scholarship
- Member – Economic Student Association, Association of Information Systems, Captain of BYU Debate ('20 - '21)
- Courses: Data Engineering, AI Agentic Solutions, Cloud Computing, Product Management, Data Science/ML

TECHNICAL PROJECTS

E-Commerce Pipeline | *MCP Agent, dbt, Snowflake, Docker Compose, Prefect, MongoDB, CI/CD, Data Lake*

- Built a watermarked Python ETL ingesting 45K+ records/cycle from PostgreSQL, MongoDB, and a REST API
- Modeled 18 dbt models across a Bronze/Silver/Gold architecture with 28 automated data quality tests
- Deployed a dbt MCP server exposing all 18 models to AI agents for natural language querying and lineage tracing
- Unified sales data from disconnected systems so campaign ROI questions no longer required cross-system queries
- Enabled non-technical stakeholders to access data via natural-language querying with a MCP agent backend

Agentic Meal/Grocery Assistant (in progress) | *Python, LLM APIs, vector search, RAG, tool-calling agents*

- Building an LLM agent that converts natural-language constraints into a weekly menu, cart, and calendar
- Designing a recipe corpus from scanned cookbooks, URLs, and photos, embedded for semantic retrieval
- Implementing agent guardrails with human approval before ordering and logged tool calls for auditing

Sentiment Analysis Pipeline | *Python, SQL Server, Tableau, REST API, Azure Functions, Python Schedule, Airflow*

- Automated an on-going pipeline that extracts news headlines from 90+ news sources
- Utilized TextBlob to perform sentiment analysis, loaded into Azure SQL Server/MySQL, Visualized with Tableau

EXPERIENCE

Enterprise Data Warehouse Intern—Data Analyst Midvale, UT
Zions Bancorporation May 2026 – Nov 2026

- Created 150+ automated data quality tests to run daily on business-critical fields, catching 5 major errors in the first month, including 41.5k missing accounts and $2.1B of missing collateral
- Built a unified connection script pulling data from Databricks, legacy data warehouse, saving 40+ hours of work monthly
- Engineered ML-driven synthetic data, dynamically replicating warehouse inputs, enabling DataOps and warehouse testing
- Mapped 20+ data items across five data sources into the data warehouse, increasing data accuracy in 3 fields

Database Engineer Intern Riverton, UT
The Church of Jesus Christ of Latter-day Saints Aug 2025 – May 2026

- Led development efforts to automate server patching and a JIT elevation process, reducing security risks for 500+ servers
- Automated eight administration, auditing, and migration tasks with PowerShell, decreasing migration time by 75%
- Monitored and supported 500+ mission critical servers and 3,500+ databases in the MSSQL platform
- Enabled cloud migration for legacy systems by building and migrating 75+ servers to SQL Server 2022/2025
- Independently performed server cutovers, maintenance, and on-call emergency assistance for clients globally

Data Scientist/Research Assistant Provo, UT
Brigham Young University Economics Department Sep 2024 – Sep 2025

- Worked as an end-to-end data pipeline specialist with ETL, cleaning, analytics, and modeling responsibilities
- Utilized Python (pandas, NumPy, SciPy, Matplotlib, seaborn, sklearn) to clean, analyze, and model large data sets

AWARDS & SKILLS

- Programming: SQL, Python, JavaScript, C#, PowerShell, dbt, Spark/PySpark, CI/CD, Docker
- Data: Cloud (AWS/Azure), ETL, Databricks (Unity Catalog, Delta Lake), Tableau/Power BI, MongoDB, Snowflake, PostgreSQL, SQL Server
- AI/ML: LLM APIs, RAG, vector databases, MCP, agentic workflows, scikit-learn, Azure ML, LangChain
- Professional Scrum Master I Certification
- Published author of *An Education on the Global Education Crisis* in the Marriott Student Review (2026)
